

RE: Melissa Kemp, President

Premium Administration, LLC and Premium Organization

March 31, 2011

To Whom It May Concern:

I know Melissa through her work as a chapter growth consultant for the U.S. Green Building Council chapters located in the West region of the U.S. As the chair of the Idaho chapter, we worked together to secure 501c3 status, develop a sponsorship program and build chapter membership. She was an important resource in guiding us through strategic planning as well as implementing and accomplishing our many goals.

Melissa has been a valued professional colleague and personal friend for the past 4 years. She has amazing generosity, wisdom and energy. Whether the issue is a need for professional advice for running a non-profit or a desire for someone to listen empathetically to challenges faced in that role, she has proven to be a reliable, caring and effective influence.

Our working relationship was characterized by laughter, collaboration, respect and accomplishment. Melissa is quite simply a pleasure to be around yet has an amazing ability to get things done.

I wholeheartedly endorse Melissa and her team to support any organization, especially a non-profit, to define and achieve their vision, mission and goals.

Regards,

Sharon Patterson
